

SEACOAST SCIENCE, INC NAMED WINNER OF TECHAMERICA HIGH TECH AWARD

Carlsbad, Calif., October 22, 2010 – Seacoast Science, Inc., a Carlsbad chemical sensing and development company, announced today that it has been selected as a winner in the category of Emerging Growth Company for the [2010 TechAmerica High Tech Awards](#). In its seventeenth year, the annual awards program celebrates excellence in the region's technology industry, and honors outstanding companies for their technological or business innovation; exceptional products or service; product marketplace validation; perseverance in the face of adversity; and community involvement. Seacoast Science was recognized in the Outstanding Emerging Growth Company category, based on its newly developed line of Gas Chromatography instruments.

"We are honored to be recognized by such a great organization such as TechAmerica" said Louis Haerle, president and CEO, this award highlights our success over the last couple of years, a success that is truly a factor of our employees and their commitment to our customers". He said, "great people combined with new innovative technology developments is positioning Seacoast to grow in the coming years."

The TechAmerica High Tech Awards were held on Oct. 22 and showcased the best of San Diego's most innovative technology. Ten awards were given across several categories, which includes Software; Internet/Web Commerce; Computers and Related Products; Communications Products and Services; Defense/IT Services; Semiconductors, Industrial and Analytical Instrumentation; Medical Technologies; Clean Technology; Contract Services; and Outstanding Emerging Growth.

"The strength of applications TechAmerica received this year made for a solid competition, and selecting winners was no small feat," said Kevin Carroll, executive director for TechAmerica San Diego. "Seacoast Science is being honored in the Outstanding Emerging Growth category not only for its innovative contributions, but because we believe its new chromatography product exemplifies key development in the technology industry."

About TechAmerica

TechAmerica is the leading voice for the U.S. technology industry, the driving force behind productivity growth and jobs creation in the United States and the foundation of the global innovation economy. Representing approximately 1,500 member companies of all sizes from the public and commercial sectors of the economy, it is the industry's largest advocacy organization and is dedicated to helping members' top and bottom lines. It is also the technology industry's only grassroots-to-global advocacy network, with offices in state capitals around the United States; Washington, D.C.; Europe (Brussels); and Asia (Beijing). TechAmerica was formed by the merger of AeA (formerly the American Electronics Association), the Cyber Security Industry Alliance (CSIA), the Information Technology Association of America (ITAA) and the Government Electronics & Information Technology Association (GEIA).
